Subject: Upcoming well sampling -

Hello: Ex. 6 - Personal Privacy

I have seen the information regarding contacting Ex. 6 - Personal Privacy for access to your well head for sampling Ex. 6 - Personal Privacy Ex. 6 - Personal Privacy I have a few other clarification questions regarding your sampling.

In the circumstances that we have folks hooked up to a water treatment system, we are hoping to sample before the treatment system and at the taps in the home to confirm the efficacy of the treatment systems. Since Ex. 6 - Personal Privacy is also hooked up to your well, we would also like to be able to sample her tap as well during our sampling event. We can work with Ex. 6 - Personal Privacy to access your water treatment building but would also like to be able to access your kitchen and Ex. 6 - Personal Privacy kitchen to collect the tap samples. You, of course, can dictate whether or not you would allow this activity.

I have also attached sample access forms for you and for Ex. 6 - Personal Privacy I can also have field personnel deliver access forms to Ex. 6 - Personal Privacy if that is more acceptable. We are scheduling sampling after Monday February 6 at this time so you may have returned from travel.

I can be reached via email or on the cell phone below at any time. thanks - Ann
